ABOUT UTTARANCHAL UNIVERSITY- ONLINE

The Uttaranchal College of Online & Distance Education (U-CODE) ensures continuous education and meets the needs of all classes of learners. The Open and Distance Learning Programs become a necessity for many of the aspirants due to financial problems & family responsibilities at a younger age. This Online Program is developed to meet the aspirations of students to upgrade their qualification, who may not be able to afford a full-time degree after their 10+2, due to paucity of time or financial resources. This online learning Program caters to the need of people of all ages.

BACHELOR OF ARTS(BA)

One can pursue under graduation in the field of Economics, Finance, Sociology, Psychology, Political Science, as well as English after passing 12th (10+2) standard examination. A specialization in arts, especially in subjects like Humanities, Liberal Arts, English, Economics, Finance, Psychology etc., opens up the doors for the aspirants attempting Civil Services in India.

Many organizations and agencies look for professionals in the identified field for better administration, event management, BPOs and building international relations. One can get into government sector jobs after clearing the entrance examinations followed by interview or other aptitude tests. In view of that, Uttaranchal University offers online BA program to students looking for various opportunities in public and private sectors as a content writer, interpreter, human resource manager, surveyor, counselor, etc.

The online BA program offered by the University is one of the most sought-after courses that offer students a broadly formative education in Liberal Arts and Social Sciences through an option to choose subject combinations best suited to the needs of a successful global career. It equips students with the right set of knowledge and skills to understand the contemporary society, its people and culture with an aim of broadening their horizons to be able to see the expanded world's view and solve the societal challenges, thereby ultimately making them an asset to any organization and society. The program gives students the freedom to follow their passion and study the subjects in domain of their choice. The University allows them the creative freedom to choose from a plethora of options such as English, Psychology, Economics, Sociology, Political Science, and History along with other electives.
